

The highest of distinctions of JUNIPER NETWORKS to GCC Computers Ltd

GCC Computers proudly announces that it has been honored by **JUNIPER NETWORKS** with the highest distinctions of both **ELITE Juniper Partner for Advanced Networks Infrastructure** and **ELITE Juniper Partner for Networks Infrastructure**.

It has always been our principle to target at the highest of levels and distinct our quality of services and products within the Cyprus IT industry. With one common goal and through hard work and dedication, GCC Computers is now a proud ELITE Juniper Partner.

By being named "**ELITE Networks Infrastructure Partner**", GCC Computers is acknowledged by Juniper that it has the knowledge and the expertise to provide solutions associated with deploying, securing and maintaining high performance enterprise networks.

Additionally, as an **ELITE Juniper Partner for Advanced Networks Infrastructure**, GCC Computers is also capable in providing solutions associated with deploying, securing and maintaining mission-critical networks for Service Providers.

Customer satisfaction has always been GCC Computer's top priority and distinctions like these guarantee the highest quality solutions and services at competitive prices. Our customers can now rely on our Networking team which can provide services such as:

- Consulting
- Design
- Implementation
- Support

GCC is the only Elite partner in Cyprus, Greece & Malta.

Elite Partnership is the highest level of Juniper reseller.

GCC was awarded Elite status in November 2011, after two and a half years of investing in people, Juniper trainings and technologies.

GCC currently employs a large number of certified engineers specializing on Juniper solutions, who can demonstrate or provide PoC on Juniper's solutions in the company's lab.

GCC Computers Ltd is a leading IT Solutions provider recognized for products and services excellence.
