

## B-COMM ERP - Solutions for SAP Applications

Time Recording, Access Control, Production Data Collection

If your requirements exceed the standard, GCC will help you get the most from Kaba ERP solutions. Kaba is the technology leader for Enterprise Data Collection in Europe and North America. Internationally active and organized on a global scale, it distinguishes itself from all other suppliers in the market. This is one of the reasons why more than 1,000 global players are counted among its satisfied SAP customers.

We collect and process safety and time-relevant company data for measuring, visualizing and optimizing targets and risks of the company.

We offer you: Support during the development of your solution by qualified consulting and concepts. Ideally matched hardware and software components. All this ensures functional reliability for years to come. High installation quality and qualified support at any time. This minimizes your implementation costs.

The more than 1,000 Kaba installations in the SAP market are spread over all continents. In more than 60 countries - in all 5 continents.

Kaba is the leading manufacturer for subsystems for Time and Attendance, Access Control and Shop Floor Data Collection with SAP. More than 1.200 international SAP customers use Kaba solutions. Kaba offers ERP solutions from one source for:

- Consulting
- Project planning
- Installation
- Training
- Maintenance and Hotline service

**GCC to work with Bundesdruckerei in the deployment of the e-Passport project of Cyprus.**

Nicosia, 10th December 2009 - GCC Computers Ltd proudly announces that, as Bundesdruckerei's partner in Cyprus, it will be playing a vital role in the deployment of the e-Passport project acting as its local sub-contractor.

Bundesdruckerei, a Berlin based company, has been awarded the Cyprus Government contract to produce electronic passports. The high-security company in Berlin is to supply Cyprus with blank passport booklets together with the complete system for data capture, central personalisation and issuing of the passports.

GCC, Bundesdruckerei's partner in Cyprus, will deliver, on behalf of Bundesdruckerei, installation services, integration of the system with the existing databases, training to the end users and project management.

Moreover, GCC will be delivering to the customer warranty and post-sales maintenance and support services.

**"GCC has extensive technical expertise in delivering system integration projects as well as delivering, installing and supporting complex IT solutions, including human biometrics data and high-security. The combination of this expertise will contribute to the successful deployment of the project"** explains George Constantinou, Managing Director of GCC.

## Service Portfolio for SAP Users

It is our goal to establish a long-term partnership with you by providing a comprehensive package of services:

### Consulting

We support you during the development of an all-in-one solution according to your individual requirements. This applies to the SAP modules PP, PM, PS, CS, HCM and CATS.

### Project Planning

We also offer the expertise that is needed to implement an international project. This starts with an on-site inspection, the recommendation of organizational structures, the planning of project progresses, and implementation of the project on schedule.

### Installation and Start-Up

Our service technicians install the terminals of the subsystem, implement the SAP interface, perform the customizing, and put the system into operation. Your employees will be trained and informed of all processes and procedures. After test runs have been successfully completed, the entire system is handed over.

### Training

We offer comprehensive training on the terminal technology and application, the B-COMM ERP for mySAP ERP communications software, and the add-on modules. Of course, we will also draw up an individual training program for our customers.

### Maintenance

For the maintenance of the installations we have our own global service organization. Our skilled technicians are available on site at guaranteed response times. In Europe and overseas, we guarantee customer support provided by our subsidiaries and service partners. A spare part express and repair service ensures the minimization of system downtimes.

### Hotline Service

Our hotline will be happy to answer any questions you may have relating to our products and the SAP interface. Our quick and qualified reply guarantees that your system will always be stable and highly available.

### Try and Buy Offer

This offer allows prospective customers to get to know the benefit of our SAP solution of subsystems for time recording. You have three months to familiarize your employees and works council with the solution. Request your offer today!

## I»» OTHER NEWS

8.93

These results confirm once more, that for 10 years in a row, our customers are extremely satisfied with GCC's products and services.

## B-COMM ERP for mySAP ERP - the Communications Software

B-COMM ERP for mySAP ERP is the software which links an SAP R/3 or mySAP ERP solution to a Kaba subsystem for time recording, production data collection and access control. The key feature of this software application is the SAP certified interface, which ensures faultless data transfer between the individual SAP modules and collection devices.

The interface is continuously kept up-to-date by means of new SAP program developments. B-COMM ERP for mySAP ERP now also allows communication with SAP applications via the SAP XI server and has a SAP-certified integration as part of **powered by SAP NetWeaver**.

B-COMM ERP for mySAP ERP is the first subsystem with SAP-certified integration for both the XML (eXtensible Markup Language) and ALE (Application Link Enabling) functions and XI functionality. The supplementary portal solution is a solution certified for **powered by SAP NetWeaver**.

## I»» OTHER NEWS

We would like to express our appreciation to all of our clients that participated in the survey and provided us with valuable feedback.

Mr. George Constantinou, GCC's CEO, stated: *"Many thanks to everyone who took part in our annual customer satisfaction survey. We are very proud of the results which prove that our customers are steadily very satisfied for more than a decade. I would like to congratulate and thank all GCC's staff for their dedication to quality and customer satisfaction. We are firmly committed to continue providing our customers with quality products and second-to-none customer service."*

Please rest assured that, your feedback is considered vital when it comes to providing you with the most excellent solutions in the market and the best services possible.
